All properties are part of larger surrounding areas. Buyers are advised to research Federal, State, and local governmental agencies' websites to become familiar with future anticipated development, global changes, climate changes, tax assessments, and other similar things that may affect the property in the future.

Square Footage: There are different methods of measuring used for different purposes. Acreage of the land and square footage of the buildings quoted on the real estate tax information, marketing materials, advertisements, brochures, MLS data, or appraisal, is only approximate, is not guaranteed, and should not be relied upon.

Tax System Data: Property data, square footage, characteristics, and building permit information in government real estate tax systems may not be accurate and should not be relied upon by sellers and buyers. It can be very difficult to research building permit information.

Additional information for specific sections is listed below:

II. DEED RESTRICTIONS, HOMEOWNERS ASSOCIATIONS/CONDOMINIUMS AND CO-OPS

- Deed restrictions are provisions in a deed or declaration that limit the use of the property. With some exceptions, restrictions cannot be removed by the owner.
- If the property is within an “association”, request further information to learn of the covenants and restrictions that the property is subject to.
- More information may be found from Delaware’s Common Interest Community Ombudsperson. Learn more at <https://attorneygeneral.delaware.gov/fraud/cpu/ombudsperson/>.

IV. ADDITIONAL INFORMATION

- Check HOA/local requirements concerning responsibility for sidewalk installation, replacement, repair, and snow removal.
- Delaware requires each county to reassess the value of real property on a regular basis. Learn more from the county tax office where the property is located.

VI. LAND (SOILS, DRAINAGE, AND BOUNDARIES)

- *Flood Zone:* Public and/or private flood insurance options exist for most properties even if property is not in a high-risk flood zone. Inquire about options with a qualified insurance agent. More information may be found at the Delaware Department of Insurance.
- *Flood Risk:* Due to location and elevation, particularly with river and coastal communities, the property and surrounding areas may experience flooding from rising sea levels and stronger storms, both now and in the future. Learn more at <https://floodplanning.dnrec.delaware.gov/>. In addition to state regulations, local municipalities may have additional floodplain management rules for property improvements. Contact the local municipality directly to find out about any specific requirements.
- *Wetlands Area:* There are both tidal and non-tidal wetlands. The property may be subject to additional governmental oversight. Inquire further through programs like Delaware Wetlands of the Delaware Department of Natural Resources and Environmental Control.
